

LUCA PERULLO

FULL STACK DEVELOPER

About me

07/03/2000

I started learning computer programming on my own and later took a comprehensive course that covered all aspects of website development. Over the last four years, I've gained valuable experience working on the front-end of websites. I'm highly motivated and passionate about computer science, and I work hard to continuously learn and improve my skills. I'm a team player but can also work independently. I enjoy solving problems and always try to come up with creative solutions. I'm eager to take on new challenges and grow my skills further.

Dst (January 2023 - Present)

Experiences

In Dst I'm following junior developers by overseeing their work and providing guidance to ensure successful completion of projects. Coordinating with stakeholders, including project managers and designers, to ensure that all project requirements were met and exceeded.

Hyperting (October 2022 - January 2023)

In Hyperting I'm deepening my knowledge integrating technologies like GraphQL, Verdaccio and Docker. Created the backend of their new upcoming web application. Upgraded the backend of their main application [Hypertheme](#).

Fides (November 2021 - September 2022)

Developing of travel platforms using NextJS, ChakraUI, TailwindCSS, i18nNext, Swiper and Redux and i18n implementation. Strong problem-solving and communication skills, with a focus on delivering high-quality products on time.

Development of a corporative platform that has as its focus organizing and significantly improving the disposal of internal practices that promotes the digital transition.

DUT (April - August 2021)

Experience with DUT - Eletrônica Industrial, in which I supervised the creation of the company's promotional site following the agile methodologies with CI / CD support

Webstorecloud (Agosto 2022)

Projects

[webstorecloud.it](#) was born from the need to have a store suitable for every device and that could provide the best applications and the best games just a click away

Skills

- React
- Redux
- Typescript
- MongoDB
- Node
- GitHub/Gitlab
- SCRUM
- Nextjs

Languages

Italian (native)
English (B2)

Hobbies

- Programming
- Gaming
- Cooking
- Trekking

Education

2020

Epicode

MERN

FULLSTACK

During my time at Strive School, I gained valuable experience working in teams/ using agile methodologies. Over the course of six months, I was challenged with intense and rigorous training that started with the basics and progressed to learning the main technologies (MERN) commonly used in most companies.

Overall, my time at Strive School has equipped me with the skills and knowledge needed to excel in the tech industry.
