PROFILE

Senior Frontend / Full-Stack Engineer with over 6 years of experience building high-performance web and mobile applications. Specialized in React and Next.js, I design scalable user interfaces, robust design systems, and product-driven architectures. I have worked on enterprise platforms, e-commerce products, and AI-powered solutions, often with end-to-end ownership from architecture to delivery. Comfortable in fast-paced environments, I collaborate closely with product, design, and business teams to turn complex requirements into effective, maintainable solutions.
